Personal Profile

Experienced Flutter Developer with 4 years of mobile expertise, specializing in designing and building scalable cross-platform apps using Flutter and Dart. Proficient in state management solutions (Provider, GetX, Bloc) and integrating RESTful APIs and Firebase services.

Educational History

Calicut University | 2017 – 2020
Bachelor of Commerce (BCom)

Work History

IMIT Park – Flutter Developer
Irinjalakkuda, Thrissur 01| 11/2022 – 03/31/2025

- Managed the entire app development lifecycle from conceptualization through deployment, ensuring visually appealing and functional user interfaces through close team collaboration.
- Applied deep expertise in the Flutter framework to develop robust, scalable mobile applications that consistently met client requirements and industry standards.

Freelance Project – School Diary App
10/2025 – 01/2026

- Designed and developed a cross-platform mobile application for schools to streamline communication between teachers, students, and parents.
- Implemented features such as attendance tracking, homework updates, announcements, and performance reports.
- Integrated Firebase for real-time data synchronization and push notifications.
- Focused on responsive UI design and smooth navigation for both Android and iOS platforms.
- Collaborated with educators to ensure the app met academic workflow requirements and improved parent-teacher engagement.

Projects

ARDRAM Application

- Played a key role in the complete app development lifecycle, from concept to deployment.
- Collaborated with design and backend teams to create a seamless user interface.
- Actively participated in code reviews and implemented best practices to maintain high code quality.

NAVASANKALP Application

- Developed the Navasankalp Application in Flutter to uphold Gandhian ideals and democratize the Congress movement through a user-friendly platform for financial contributions.

Balettanu Oru Veedu

- Crowdfunding app that enables users to contribute funds towards building a home for Balettan.

Irinjalakuda Khadi (E-commerce)

- Developed an e-commerce platform focused on Khadi products, featuring a diverse catalogue of men's and women's apparel and beauty products.
- Streamlined product browsing and purchasing to enhance user experience and promote local craftsmanship.

Red Cross (Organizational)

- Built an application for the Thrissur Red Cross branch to centralize service listings, member directory, historical data, event updates, fund collection, and push notifications, supporting disaster relief and community health initiatives.

Skills & Qualifications

- Hands-on experience in Flutter for mobile and web application development.
- Strong expertise in iOS and Android frameworks with working knowledge of Kotlin, Swift, and UIKit.
- Proficiency with databases such as Core Data, SQL, or similar systems.
- Experience in building SDKs and creating custom iOS/Android frameworks.
- Solid understanding of Apple's design principles and application interface guidelines.
- Experience with Flutter state management libraries (Provider, MobX, etc.) and responsive UI design.
- Strong knowledge of native bridging between Flutter and platform-specific code.
- Experience publishing applications to the Google Play Store and Apple App Store.
- Exposure to cross-platform/multiplatform integrations.
- Strong analytical, critical thinking, and problem-solving skills.
